B2B CASINO GAME STUDIO

Original casino games with a story

Multiplayer multiplier games, provably fair, built for casino operators and aggregators.

Everything in-house, from math to art

Original games

Two live multiplayer “Grab & Run” games on one engine. Slots in development.

Own game math

97% RTP models, verified with millions of simulated rounds and independent re-checks.

Provably fair

Hash chain, player seeds and independent public randomness. Every round can be checked.

Full stack

Real-time engine, back office per game, mobile-ready, cloud hosted, private partner demo.

Looking for launch and distribution partners

Partners get

- Bet limits and max win set per operator
- New themes on the same proven engine
- Private demo access under NDA

We are looking for

- Aggregators and casino platforms
- Operators for first launches
- Jackpot and tournament partners
